Smart Contracts | Metamask | HardHat | IPFS

TOOLS

Git | Github | VS Code

Projects

FILMPIRE (06/2022 - 06/2022)

OTT PLATFORM

- Tech used:** ReactJs, Redux, Material-UI, Alan-AI.
- A Netflix-clone project named Filmpire has user authentication, light-dark mode, adding a movie to a favorite or watchlist functionality, Alan voice assistant, and much more.

SWAGSWEAR (04/2022 - 05/2022)

E-COMMERCE WEBSITE

- Tech used:** NextJs, Sanity, Tailwind-CSS, Stripe payment gateway.
- An e-commerce website with cart functionality and integrated stripepayment gateway and fully responsive.

MEMORIES (12/2021 - 02/2022)

BLOG WEBSITE

- Tech used:** ReactJs, Redux, NodeJs, Express, MongoDB, Material-UI.
- The App is called "Memories" and it is a simple social media app that allows users to post interesting events that happened in their lives.
- This application includes user authentication, creating, updating, and deleting post functionality. Users can also like and comment on posts.

TWITTER-CLONE (07/2022 - 08/2022)

SOCIAL MEDIA APP

- Tech used:** NextJs, Sanity, Tailwind-CSS.
- A full stack twitter-clone app having the sign-in/sign-out functionality. Users can post a tweet and comment on a tweet.

CRYPTOKET (06/2022 - 07/2022)

NFT MARKETPLACE

- Tech used:** NextJs, Tailwind-CSS, Solidity, Hardhat, Metamask.
- My first Web3.0 project CryptoKet. This project combines futuristic elements of Web3 blockchain development and the popular culture wave of non-fungible tokens (NFT).
- This application includes the creation, buying, selling, and reselling of NFTs and user authentication through the Metamask wallet. Its theme can be switched to both dark and light modes.

Achievements

CODECHEF

- Achieved global rank 8 in January Long Challenge 2022 @Codechef
- 3 star coder @Codechef
